

## TESTIMONIALS

*Pastor David, at the very beginning of your sermon you joked that instead of your notes on the back wall, the projector view for you was the clock – and everyone laughed. This is the first time in three years of attending Weem's Creek that I didn't have to ask Terry why everyone laughed. (When a person does something other than normal speech pattern – tells a joke, prays, etc., their voice normally deepens. The change in pitch is enough that I rarely hear a joke first time around). I grinned and laughed along with my church family at what you had pointed out. Terry (in a habit of clarifying for me) leaned over to tell me why everyone was laughing. I held up my hand, pointed to my cochlear implant, and gave a 'thumbs up.' I heard it. On my own.*

*What I experienced last Sunday was nothing short of a miracle. For the very first time in many, many years I was able to hear every single word said in church along with every note of music. I cannot express my thankfulness in words. It was truly one of my most memorable moments in my life and I felt 'normal.'*

*I took my mother to Mass. In her words, 'I could hear every word, and this is the first time that's happened in years.' She went on to say how much more she got out of the service and realized how much she had been missing.*

*I can certainly attest to the spread of the loop system in Michigan. Before we installed our [church's] system I telephoned a number of facilities listed by a loop vendor as having installed such a system. I was amazed to discover that not a single installed site had anything but vociferous praise for the product! One would expect at least one naysayer in a group that large (22). But there was not a single one!*

*From a minister's daughter, It's just not right that at the twilight of one's life they're deprived of spiritual sustenance.*

*What happens is, the only sound you get is what the speaker is 'saying' into the system - no echoes, no people sneezing or coughing. That's what makes it so good.*
